EXPERIENCE

UConn Health Center, Farmington, CT

2014 – Present

Acquisition Consultant

- Interview individuals critical to the successful acquisition of new practices, including executives, across multiple business units to discover benefits and shortcomings of the existing process and make recommendations to the Strategy Department based on the findings.
- Create a formal and standardized set of practice acquisition procedures detailing the timeline and delegating responsibilities across departments to improve process efficiency and effectiveness.

Travelers, Hartford, CT

2014 – 2014

Business Intelligence Intern

- Leveraged strategic data sources, insured data infrastructure and platform stability, and defined complex decision algorithms using an existing Excel based model to support the reengineering and production of the Travelers Rate Management Report (TRMR) tool in a Business Analyst role.
- Analyzed, documented, and resolved data-driven issues within Travelers' propriety customer relationship management (CRM) software by leveraging SQL and advanced Excel techniques, giving field users enhanced abilities to utilize built in prospecting capabilities for the Middle Market and First Party business.
- Created a VBA macro driven Excel based tool for identifying critical contract requirements to allow underwriters to more quickly and efficiently evaluate opportunities across all product lines in the Renewable Energy field.

AmeriCorps, Austin Habitat for Humanity, Austin, TX

2012 – 2013

Construction Crew Leader

- Led twenty volunteers daily to complete complex construction tasks; met goal of completing twenty-five homes.
- Increased production by teaching team members and volunteers complex construction skills and techniques.
- Managed inventory levels of building materials and tools to ensure timely production.
- Organized job sites and company warehouse to optimize safety and efficiency when building homes.

Flow Tech, Inc., South Windsor, CT

2009 – 2012

Sales Engineer

- Managed the sales process from design to installation for various heating, ventilation, and air conditioning (HVAC) products for large scale commercial, educational, and industrial projects.
- Developed new business bringing in customers from the healthcare, pharmaceutical, and higher education markets.
- Partnered with engineers to design specific products into complex mechanical systems.
- Performed lifecycle analysis based on energy efficiency and quality product construction to demonstrate the relatively low total cost of ownership based on a larger upfront investment.
- Continuously expanded knowledge of innovative products to ensure proper application and function within mechanical systems.

ADDITIONAL INFORMATION

Student Managed Investment Fund

2014 – 2015

- As Portfolio Manager on a MBA team, apply classroom financial theory and concepts and other investment tools to invest \$1.5 million dollars of the UConn Foundation's endowment fund in the stock market.
- Research, analyze, and justify investment decisions to faculty and UConn Foundation professional advisors.

Outdoor and Sport Enthusiast

- Hike, camp, and bicycle as often as possible, especially in the White Mountains in New Hampshire.
- Participate in a variety of men's league sports: hockey, softball, and basketball.
