This conference will address the development of practical solutions and methods for invasive plant management and detail the actions needed to promote native species, improve natural areas, and benefit wildlife. All interested people, including municipal staff (parks and recreation, public works, inland wetlands/conservation commissions), nursery, tree and landscape professionals, educators, students, landscape architects, gardening enthusiasts, state and federal employees, and members of conservation organizations are encouraged to attend.

DRIVING DIRECTIONS

NEW, MORE CONVENIENT LOCATION: The Symposium will be held at the University of Connecticut, <u>Student Union</u>, 2110 Hillside Road, Storrs, CT 06269.

Registration fee includes parking in the North or South Garage. Bring your ticket to the symposium for validation.

From Hartford:

Take I-84 East to Exit 68 in Tolland. Go South on Route 195, about 6 miles to the University. At the white Congregational Church on campus, turn right onto North Eagleville Road.

From Route 6 and points south:

Take Route 195 North. Pass thru Storrs Downtown and Mirror Lake (on left). Take next left onto North Eagleville Rd. by white Congregational Church.

From intersection of Rte 195 / North Eagleviille Rd: Proceed to 2nd stoplight (just past North Garage). Turn left onto Hillside Rd. Take a hard left into the parking garage driveway at the intersection with Alumni Rd. For the South Garage, continue (slight left) on Hillside Rd. Turn right (after Gampel Pavilion) onto Jim Calhoun Way, then left into South Garage driveway.

The University of Connecticut website includes campus maps and directions to Lodewick Visitors Center located across from the North Garage http://maps.uconn.edu/

CONTINUING EDUCATION CREDITS

Pesticide Recertification Credits and other continuing education credits will be offered (see CIPWG website).

INVASIVE PLANT SYMPOSIUM

Invasive Plants 2014: Where Are We Now?

PRESENTED BY:

TUESDAY, OCTOBER 7, 2014 8:00 A.M. – 4:30 P.M

Student Union University of Connecticut- Storrs, CT

This 7th biennial conference features national, regional and local experts as well as citizen volunteers sharing practical solutions for managing invasive plants, promoting noninvasive pants, and improving wildlife habitat.

Co-Sponsoring Organizations are listed on the CIPWG website at: www.cipwg.uconn.edu

Issued in furtherance of Cooperative Gregory Weidemann, Director, Cooperat

operative Extension work, Acts of May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture, Cooperative Extension System, University of Connecticut, Storrs. An equal opportunity program provider and employer.

University of Connecticut
Department of Plant Science & Landscape Architecture
1376 Storrs Road, Unit 4067
Storrs, CT 06269-4067

CONCURRENT SESSIONS AND SPEAKERS

Time	SESSION 1	SESSION 2	SESSION 3	
1:00 - 2:15	A Progress Report: What's Working	Panel: ID, Management and Alternative Plants	Aquatics Update	
2:15 - 2:30	Refreshments and move to next session			
	SESSION 4	SESSION 5	SESSION 6	
2:30 - 3:45	Wildlife Habitats Large and Small	Beginner Botany and New Early Detection Action Alerts	Priorities and Partnering for Invasive Plant Management	

Breakout Sessions Descriptions:

Full list of speakers and additional details available online

Session 1: Progress in battling invasive plants is being made on multiple fronts. This session will cover management successes, native shrubs for harsh sites, and working with volunteers. (Ann Pettengill, Chris Polatin, Jessica Lubell)

Session 2: A panel of experts prepared to address 10 common invasive plants will present species-specific information on identification, control, and alternative plants in an order prioritized by the audience.

Session 3: Control of invasive plants in aquatic and wetland ecosystems is difficult. Topics to be covered include management of Phragmites, herbicide resistance in aquatics, and State efforts on aquatic invasives spread. (Paul Capotosto, Lori Benoit, Gregory Bugbee)

Session 4: Using non-invasive plants to improve habitat for wildlife (including birds, bees, and butterflies), whether in a homeowner garden, park, or restoration area. (Andy **Brand, Peter Picone)**

Session 5: Learning how to tell if you have an invasive plant is the first step in curbing the spread of invasive plants. A review of basic plant ID (including new on-line tools) will be followed by a presentation on recognizing species with high invasion potential. (Bryan Connolly)

Session 6: Panel discussion. At the Town-wide scale, despite different priorities and capabilities, we are all in this together. Invasive plant priorities, needs, prioritization processes and how Town and non-Town efforts might be coordinated will be covered.
