1. CLAS study for prospective teachers. Proposed resolution:

Further to earlier discussion, the College of Liberal Arts & Sciences supports the aim of expediting pursuit of a second baccalaureate degree by Neag School students. In furtherance thereof, CLAS urges that any amendment to the existing requirements for an additional baccalaureate degree should take the form of an added provision setting forth the following:

The requirement of 30 additional credits is waived for a student who completes the requirements of both a teacher preparation degree in the Neag School and a bachelor's degree in another school or college.

The college does not support any other form of amendment to the existing regulations.
