Downloading Mediasite Materials

- Head to the <u>Mediasite Manage Portal</u> (<u>https://mediasite.dl.uconn.edu/mediasite/manage</u>) and login with your NetID.
- 2. Expand the "Downloaded Courses" folder and click on your course.

3. Select on the lecture you wish to download by clicking on the title text. This will make a window pop up.

4. Click on "Delivery."

Summary	Security	Analytics 🔻	More 🔻				
	Video	1 (Video 1)					
Media: MP4 AAC							
Information	Delivery	Stream Details	Actions				

5. Once on the Delivery tab, you will click on "Video 1" and a new dropdown will appear. You will find a link under the Distribution URL. You need to highlight the URL up until the "?playback..." part. For example, in the picture below, you would highlight the following "http://video.dl.uconn.edu/OnDemand/DL/MP4Video/44bcd09c-0915-4405-9629-750d258929be.mp4"

Video 1 (Video 1) -		
MP4		
Status		
Completed (original media)		
Encoding System match to 1280x720 at 29.97002997003 fps, 3217000 bps		
Distribution Url		
http://video.dl.uconn.edu/OnDemand/DL/MP4Video/44bcd09c- 0915-4405-9629-750d258929be.mp4? playbackTicket=&site=mediasite.dl.uconn.edu		
Storage Server Url https://mediasite.dl.uconn.edu/Mediasite/FileServer		
Local Url file://media7sql1/Data2/DLContent/MP4Video		

6. Copy and paste this URL to a new tab/window. Pause the video that is now playing in the new window. Right click anywhere on the video and select to download the video. Each browser will have a different way of asking how to save the video. The picture below is from Chrome.

	Loop	
\checkmark	Show controls	
	Open video in new tab	
	Save video as	Ctrl+S
	Copy video address	
	Cast	
۵	Block element	
	Inspect	Ctrl+Shift+I

7. The video will now download to your computer where you can keep it for your records.
