**MCB 5445. Genome Dynamics and Epigenetics**

3 credits. Lecture. Mechanisms of eukaryotic genome function and dynamics. Topics include chromatin organization, chromosome structure and function, and nuclear architecture.

**2011-78 COMM Change existing Major. Approved unanimously.**

(Requiring acceptance to major to fulfill degree requirements. Changing Pre-Communication major to include only those with 70 or fewer credits. Deleting references to graduate program and changing the word “concentration” to “track.” For Communication Disorders, changing the MATH and BIOL requirements and courses required within track.)

*Approved catalog copy for the major description:*

**Communication Sciences**

The Department of Communication Sciences is concerned with the human communication process and its analysis. Undergraduate students may major in Communication Sciences with a track in either Communication or Communication Disorders.

**Communication Disorders.** Communication Disorders. The undergraduate track is a preprofessional program within the liberal arts curriculum. It permits the student to apply for graduate studies in one of two specialty areas: audiology or speech-language pathology. Following requirements of the American Speech, Language, Hearing Association, students must take one course in each of the following areas:

Mathematics/Statistics: [STAT 2215Q][1]

Biological science: [BIOL 1102][2] or [BIOL 1103][3] or [BIOL 1107/1108][4]

Physical science: [PHYS 1010Q][5] or [PHYS 1075Q][6]

More advanced level courses may be substituted for the courses listed above. Students who elect the track in Communication Disorders must take:

[CDIS 2XXXa][7], [2XXXb][8], [2XXXQ][9], [3247][10], [3248][11], [4XXXa][12] or [4XXXaW][13], [4249][14] or [4249W][15], [4251][16] or [4XXXb][17] or [4XXXbW][18].

The information literacy competency is met by the successful completion of required courses. To satisfy the writing in the major requirement, students must pass at least one course from [CDIS 4xxxbW][19], [4244W][20], or [4249W].

Communication.
The undergraduate track in Communication is designed to produce students capable of analyzing human communication behavior from a scientific standpoint. It concentrates on the empirical investigation of human communication, stressing developments in communication theory and research. The track emphasizes interpersonal, mass, new communication technologies, nonverbal, intercultural, and international communication.

Students must apply to the department to become a Communication Sciences in Communication. Applications are accepted for Fall and Spring semesters and the deadline for applications is the end of the second week of classes. Forms can be obtained outside Room 223 PCSB, on the department website, and from Communication faculty members at the Stamford Regional Campus.

The decision to admit will depend on several criteria:

Successful completion of at least 54 credits, or successful completion of 40 credits plus current enrollment that should result in at least 54 credits by the end of the current semester.

- Cumulative GPA, and
- Successful completion of COMM 1000.

The applicant’s academic record and space availability are also considered.

Prior to acceptance into the Communication Sciences major, students with fewer than 70 credits may declare themselves Pre-Communication majors at the College of Liberal Arts and Sciences Academic Services Center (www.services.clas.uconn.edu). The Pre-Communication designation indicates an intention to apply to the major. It does not ensure acceptance into the Communication major or give students priority in registering for Communication courses. Pre-Communication majors must still apply to become Communication Sciences majors with a Communication track by following the process described above.

Students interested in the Communication concentration should complete COMM 1100 and COMM 1300 before junior year, if possible. COMM 1300 is a prerequisite for many 2000-level media courses and is advised for all students, particularly those interested in media production, communication technology, marketing, public relations, or advertising.

Successful completion of a BA degree in Communication Sciences with a Communication concentration requires the following:

1. Acceptance as a Communication major.
2. **COMM 1000, 1100, 3000Q**.
3. At least two (2) of the following Core courses: **COMM 3100, 3200, 3300**.

   Students are welcome to take all 3 Core courses.
4. A total of 24 credits in Communication at the 2000 or above level (typically 8 courses).
5. A minimum of 5 theory courses including a W course in Communication at the 2000 or above level. There are applied and theory courses in Communication.

   Applied courses include the following: COMM 4800, 4820, 4940, 4991 and, 4992.

   Theory courses are the remaining COMM courses numbered 2000 or above including the Core courses.
6. Students are not required to take any applied courses, though they are highly recommended for a variety of career paths. As long as students have met the above requirements, they may take additional applied courses but only 2 can count towards the minimum 24 credits required for the major.
7. All students are encouraged to do at least one internship (COMM 4991). Internships can be done during the academic year or summer. Students must have 12 credits in Communication at the 2000 level or above before eligible for internship credit.

To satisfy the information literacy competency, all students must pass COMM 1000, 1100, and 3000Q. Other courses that will further enhance competency in information literacy include COMM 1300, 3100, 3103, 3200, 3300, 3321, 3400, 3450, 3600, 4089, 4100, 4120, 4220W, 4230, 4320, 4330, 4410W, 4420, 4450W, 4451W, 4460, 4500, 4551W, and 4620. To satisfy the writing in the major requirement, students must pass at least one course from COMM 2310W, 4220W, 4410W, 4450W, 4451W, 4551W, 4660W, 4930W, 4996W, or any 2000-level or above W course approved for this major. For students interested in media and public relations careers, journalism courses are recommended for additional writing competency.

2011-79 Add CDIS 2XXXa Anatomy and Physiology of the Speech and Hearing Mechanism. Approved unanimously.

Approved catalog copy for the major description:

**Sociology**
Sociology is an analytic discipline concerned with understanding people as creators of, and participants in, society. The field is broadly concerned with the study of modern society and its social organizations, institutions, groups, and social roles. Sociologists study social influences on human behavior, such as sexuality, ethnic identity, and religious belief, and how individuals become members of families and communities. The field is also concerned with social problems, especially all forms of prejudice, discrimination, and inequality, and with poverty, crime, violence, and the threatened environment. Sociologists emphasize sources of social problems in the organization of society, public policies for their alleviation, and today’s questions of social justice. Finally, they study how individuals, both alone and working in groups, can change the
society in which they live. A major in sociology opens many doors for careers and is excellent background for advanced training in a variety of other fields.

At least 24 credits of SOCI courses at the 2000-level or above are required:

Three specific courses are required of all majors: **SOCI 3201, 3211Q, 3251**. (Note: Students must take **SOCI 1001, 1251, 1501** or **1701** prior to taking **SOCI 3201, 3211Q**, and **3251**)

At least one course must be taken from the following group: Inequality, Diversity, and Change (SOCI 2827, 3221, 3222, 3421, 3429, 3501, 3503, 3505, 3511, 3601, 3621, 3701, 3703, 3801, 3821, 3825 or 3905)

Twelve additional credits (usually four courses) must be taken from any 2000-level or above courses offered by the department, including those listed above. (Note: No more than three credits of SOCI 3990 can apply to the major).

A minor in Sociology is described in the “Minors” section.

**III. Old Business**
Environmental Studies was discussed briefly. A faculty board, headed by Kathy Segerson
(ECON), has been formed to oversee the development of the Environmental Studies Major. The Chair asked committee members to continue to forward the names of any faculty members who might wish to work with the Environmental Studies group regarding the development of the major plan of study.

IV. New Business
None.

V. Adjournment
The meeting was adjourned at 5:36 PM. Next meeting November 8th, 2011

Respectfully submitted
Margaret Breen, Secretary Pro Tem
