Proposals

2004-21

Proposal to Change an Existing Course
1. Date: 2/13/04
2. Department: LAMS
3. Nature of Proposed Change: Non-W to W
4. Current Catalog Copy:

LAMS 290 Latin American Studies Research Seminar.
Either semester. Three credits.
   Capstone course in which majors and minors in Latin American Studies design, execute
   and write up original, library-based research on Latin America. Some readings may be in
   Spanish or Portuguese.

5. Proposed Catalog Copy:
LAMS 290W Latin American Studies Research Seminar.
Either semester. Three credits. Prerequisite: Consent of instructor.
Capstone course in which majors and minors in Latin American Studies design, execute and
write up original, library-based research on Latin America. Some readings may be in Spanish or
Portuguese.

6. Effective Date: immediately

Justification

1. Reasons for changing this course:
The course is being changed to a W because it is a writing-intensive course. In the past, students
who needed the W credit would petition for the change. Students develop research topics and
carry out their research in stages. They write and re-write sections of their papers (i.e., problem
statement, literature review, first draft), and turn a final 15-20 page paper. Seminar sessions are
devoted to discussing and mastering the steps in the research process and group critiques of the
papers-in-progress.

2. Effect on Department's Curriculum: None

3. Other Departments Consulted (see Note N): None

4. Effects on Other Departments: None

5. Effects on Regional Campuses: None

6. Staffing: None

7. Dates approved by:
   Department Curriculum Committee: 1/31/04
   Department Faculty:1/31/04

8. Name, Phone Number, and e-mail address of principal contact person:
   Elizabeth Mahan, Instructor 486-4964

12. S/U grading, if applicable (see Note X): NA

Justification

1. Reasons for adding this course: (see Note L): The Department learned at a meeting with Jim Henkel at a Graduate School Workshop that students doing graduate independent studies could no longer register under the department’s Special Topics number (300), which has been the practice for many years.
2. Academic Merit (see Note L): The course will give graduate students the opportunity to do independent work (research, readings, etc.) on topics not included in the formal course offerings, under the supervision of a faculty member affiliated with the Center for Latin American and

LING 103. The Diversity of Languages.
Either semester. Three credits. Calabrese, van der Hulst

Note regarding Gen Ed 7 classification: This course provides an understanding of differences between languages, both linguistic differences and differences in terms of their status in multilingual human societies, thus helping the student to develop an educated view on the role that languages play as vehicles of cultural identity and cultural heritage. Topics include: clarifications of misunderstandings about language and its role in human societies, language families, minority languages, language change and variation, evolution of language, endangered languages, minority language, multilingualism, structural properties of language universals and differences, writing systems, literacy. At the group level, language is studied as a form of social interaction; at the level of the individual as a form of knowledge, a special part of human cognition. Methodology, theories and concepts: Based on empirical observations, linguistic theories represent hypotheses (i.e. models) of a particular kind of human behavior and human interaction, as well as the mental competence behind that behavior and interaction. Predictions about non-observed, new behavior can be tested by further observation. Methodology includes: direct empirical observation of spontaneous behavior; experiments and elicited behavior. Tools used include: databases; statistical analysis; expressions of linguistic behavior in the form of explicit notations/algorithms.

2004-29
Overview of the following proposals to create a curriculum for a new department of Public Policy. (March 8, 2004)

The faculty in the new Department of Public Policy greatly appreciate the C&C committees willingness to consider our proposed courses in an expeditious manner. While the official creation of the Department awaits formal BoT action on March 23, we are excited about beginning the new department. The university administration has strongly endorsed the creation of the department, and the Political Science Department (from which 6 or 7 existing faculty tenure/tenure track lines will be transferred) has recently voted 24-3 in favor of the department's creation.

The creation of courses that would be in the Department of Public Policy has been an important subject of discussion, both with the political science department and with university administrators, over the past few months. The attached document labeled "Transition Memo" includes a clause which directly addresses what the Public Policy and Political Science Departments agreed to, with the approval of Dean MacKinnon and Senior Vice Provost Maryanski.

Accordingly, we have created 4 categories of courses that we are submitting for review to the C&C committee. These are:

(1) "Proposal to Change existing group of courses" -- courses that are currently in political science and are being moved to public policy
(2) "Proposal to add a group of new undergraduate courses" -- numbers for new undergraduate courses for internship, independent study, special topics and the like
(3) "Proposal to add a new group of graduate courses" -- internship, special topics, independent study
(4) Proposal to add new undergraduate and graduate courses -- these are modifications of existing political science courses to make them public policy courses (political science will maintain the current version of these courses).

Once again, we greatly appreciate your willingness to review these proposals so quickly under these special circumstances. We also look forward to meeting with the committee on March 16 to answer questions.
