How to Adjust Student Access Dates

1. Go To Customization

Under **Course Management** select **Customization**

2. Select Properties

Under **Customization** select **Properties**

3. Edit the Properties

By default the start date for HuskyCT course sites is the official start date for the term.

Under **Set Availability**, be sure that course is available

Under **Set Course Duration** change the **Start Date** to the date of your choice.

It is also possible to adjust the **End Date**. This is typically done when a student with an incomplete needs continued access to the course site.

4. Click Submit

Once the date adjustment has been make, be sure to click on **Submit**
