*Next meeting: March 18, 2010 in the Mansfield Town Hall Council Chambers.

*Meeting changed to the 3\textsuperscript{rd} Thursday, due to the UConn spring break.
MCCP Outcomes Brainstorming
February 11, 2010

- Improve personal safety of students
- Improve quality of life for residents (including students)
  - What defines “quality of life”?
- Promote “one community” and discourse between campus and community
- What are the desired outcomes from this partnership?
  - How do we measure outcomes?
- Reduce excessive drinking
- Reduce underage drinking
- Reduce undesirable neighborhood behaviors
- Increase knowledge of and participation in campus by community, and vice versa
  - MCCP= resource for community partners, get the word out more about meetings!
- Promote volunteerism and community service with students, encourage students to get involved in a positive way
  - Increase number of opportunities
  - Increase number of students participating
- Find opportunities to connect off-campus and on-campus students with residents in a positive way
  - Improve relationships
  - Discourage stereotyping of students
- Determine measures that have meaning/value. Don’t measure for the sake of measuring.
  - Measures for personal safety:
    - Crime statistics (reduce these stats)
    - ER/Health data
- Look for “low hanging fruit” and go after them initially, i.e. aim for low cost solutions, with low level of effort/manpower first.
